This is a template to get you started. You can fill it out or change it however you feel is better for you. Bellow are some numbered guiding points of things we would like to learn about you.

Some things you should try and explain for us:

- 1 Tell us about your previous eating related goals.

If you have journaled food, tell us:

- How you journaled
- What was your motivation and objective
- If you accomplished those goals, and why or why not

- 2 Have your food related goals changed? If so, what are they now?

What information about your food do you want to keep a record?

How do you use or would you use these informations?

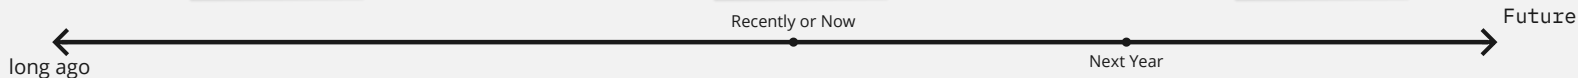

- 3 Do you have any short-term or long-term future plans related to food consumption?

If *anything was possible*, what informations would you like to be able to access or know to help you get there?
